

EA_Coffee3in1

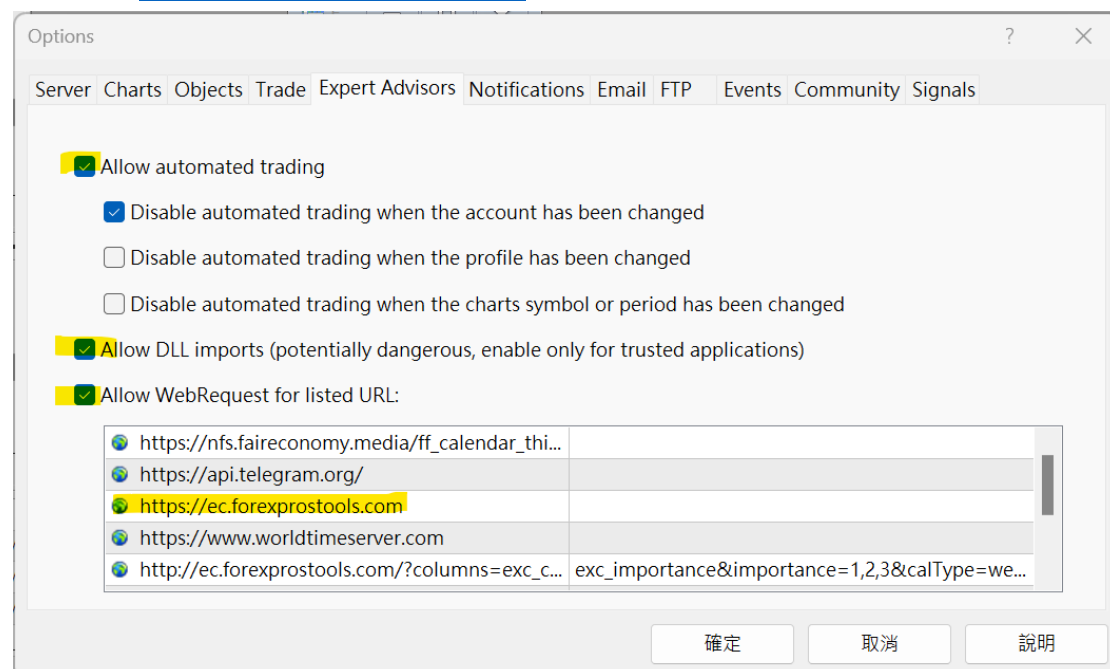

Combination of account protector, account scheduler & news event filter (3in1)

How to use?

- Initial setting,

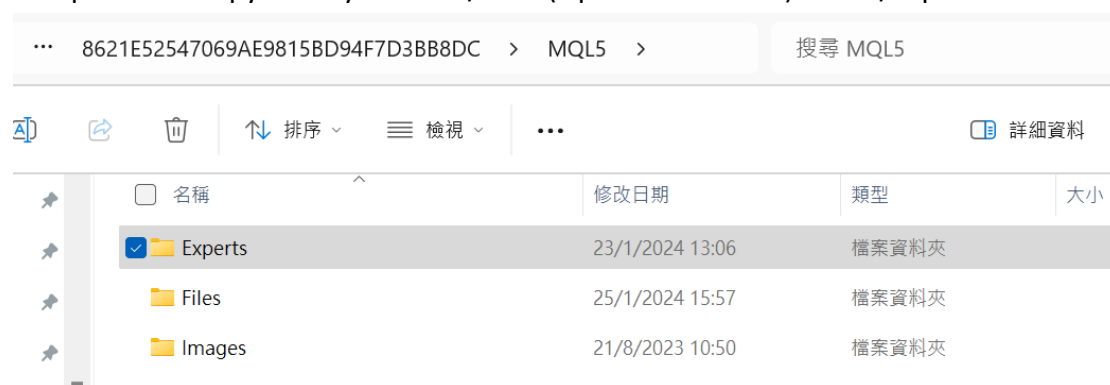

Enable auto trading and allow web request in MT4/MT5

Add URL, <https://ec.forexprostools.com>

- Installation of EA

Unzip file and copy EA to your MT4/MT5 (Open Data Folder) MQL*/Experts folder

- Account Protector

To monitor trading conditions and trigger actions like close orders & stop auto-trading

for detail how to use, pls refer to the following

[Account Protector for MetaTrader \(earnforex.com\)](https://www.earnforex.com/account-protector-for-metatrader/)

- Account Scheduler

Allow trading session in particular day & time

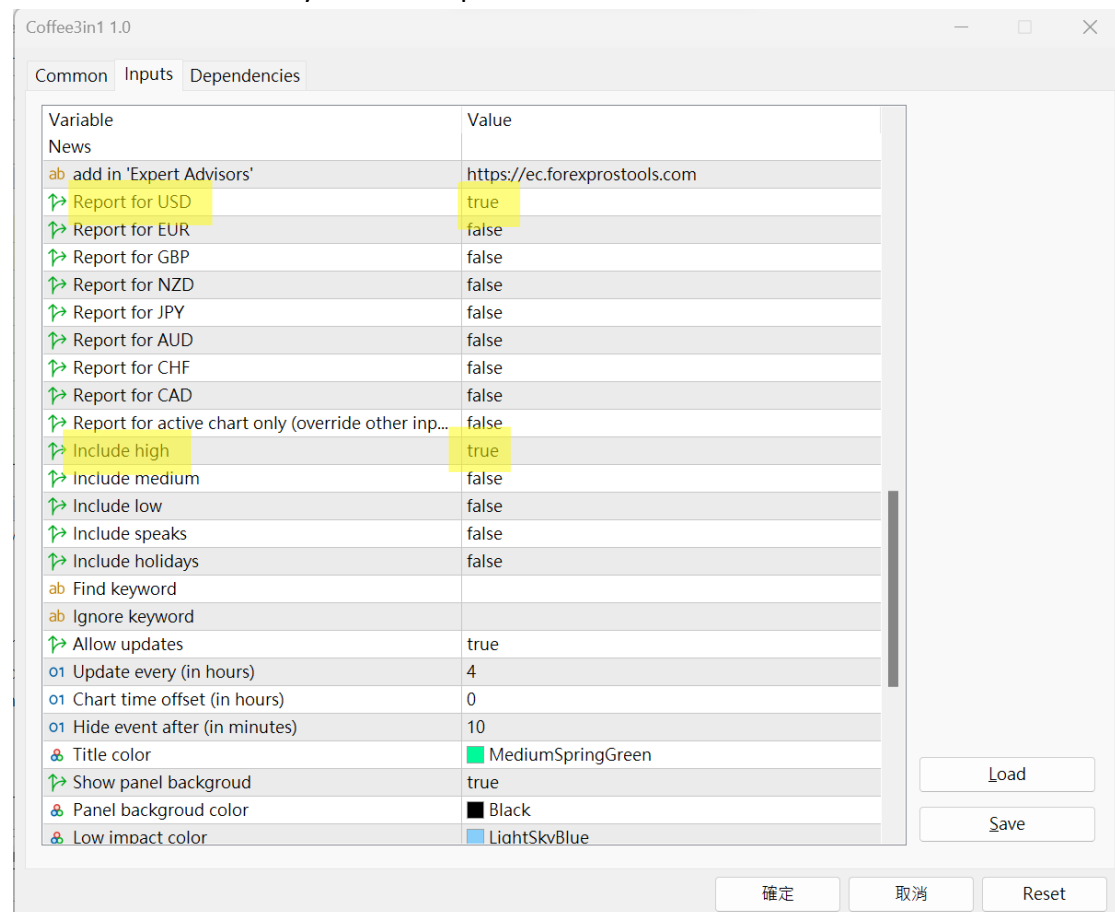

for detail how to use, pls refer to the following

[AutoTrading Scheduler for MetaTrader \(earnforex.com\)](https://www.earnforex.com/auto-trading-scheduler-for-metatrader/)

- News event filter

Allow trading session in particular news events

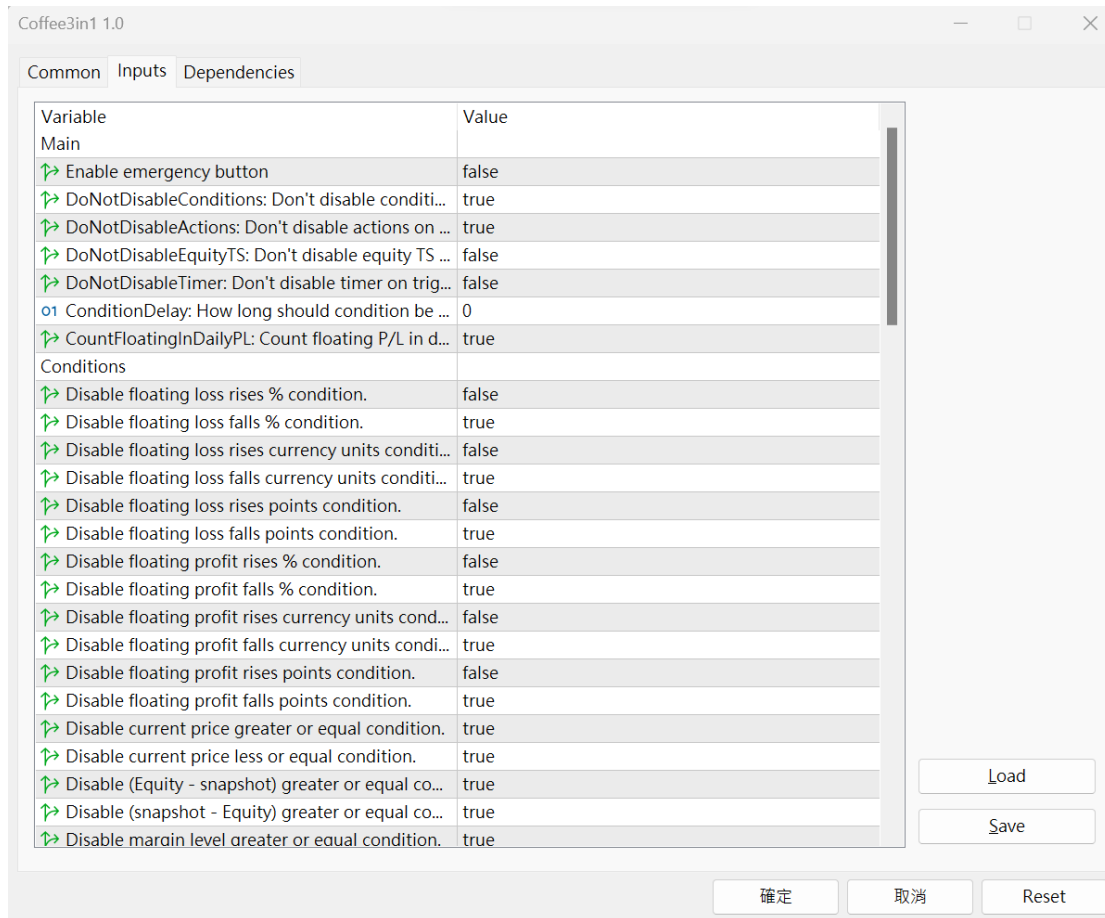

You can select currency & news impact as below

- Load the EA_Coffee3in1

Open trading chart, e.g. XAUUSD H1 (any currency & timeframe is ok)

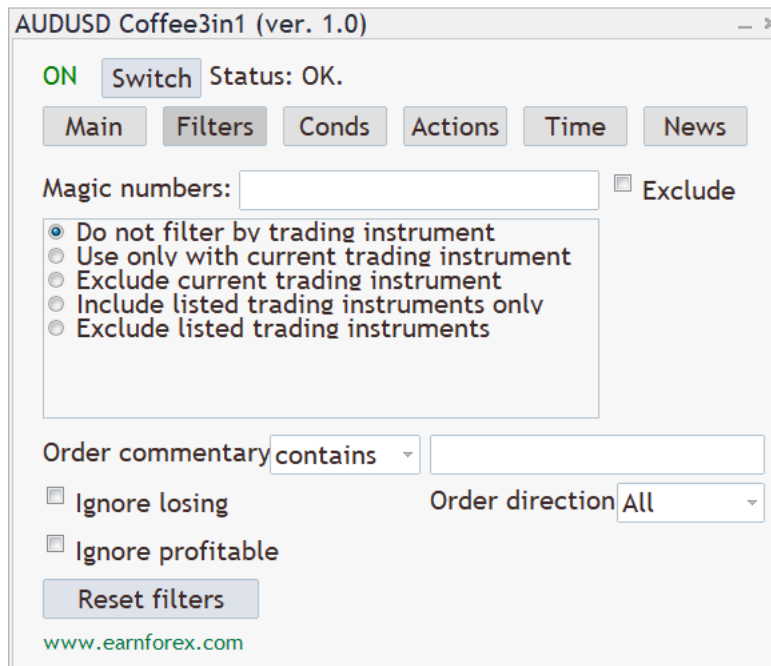

Load Coffee3in1 and apply your setting (default is ok, or you can customize your favorite setting)

● [tab Filters] Monitor magic number

Setup your magic number to take action. (blank for any)

Enter multiple entries by commas, e.g. 11,12

- [tab Conds] Monitor floating loss

Setup your maximum loss, e.g. 1000

EA will monitor floating loss to trigger actions in tab Actions

AUDUSD Coffee3in1 (ver. 1.0)

ON Status: OK.

☐ Floating loss rises to % of balance:

☒ Floating loss rises to currency units:

☐ Floating loss rises to points:

☐ Floating profit rises % of balance:

☐ Floating profit rises to currency units:

☐ Floating profit rises to points:

☐ Equity <= currency units:

☐ Equity >= currency units:

☐ Equity <= % of snapshot (105833.53):

☐ Equity >= % of snapshot (105833.53):

☐ Free margin <= currency units:

☐ Free margin >= currency units:

☐ Free margin <= % of snapshot (105833.53):

- [tab Actions] take actions

If condition is met, close all trading orders and turn off auto trading

AUDUSD Coffee3in1 (ver. 1.0)

ON Status: OK.

☒ Close % of positions' volume.

☒ Delete all pending orders

☒ Disable autotrading

☐ Cooling hour Resume: 0

☐ Send e-mail

☐ Send push notification

☐ Close platform

☐ Enable autotrading

☐ Recapture snapshots

☐ Close all other charts

www.earnforex.com

- [tab Time] trading session

Setup trading day & time, default is 5x24

The screenshot shows the 'AUDUSD Coffee3in1 (ver. 1.0)' window. At the top, there is a green 'ON' indicator, a 'Switch' button, and a 'Status: OK.' message. Below this is a row of tabs: 'Main', 'Filters', 'Conds', 'Actions', 'Time' (which is selected), and 'News'. The 'Time' tab contains the following elements:

- Text: 'Allow trading only during these times:'
- Text: 'Example: 12-13, 14:00-16:45, 19:55 - 21'
- A list of days with corresponding time input fields:
 - Mon: 0-24
 - Tue: 0-24
 - Wed: 0-24
 - Thu: 0-24
 - Fri: 0-24
 - Sat: (empty)
 - Sun: (empty)
- A 'Set to all empty' button next to the day inputs.
- A checkbox labeled 'Attempt to close all trades before disabling AutoTrading.' which is currently unchecked.
- A green URL 'www.earnforex.com' at the bottom.

- [tab News] monitor news event

Setup minutes before/after news event as trading session

Include = trading in the news event session

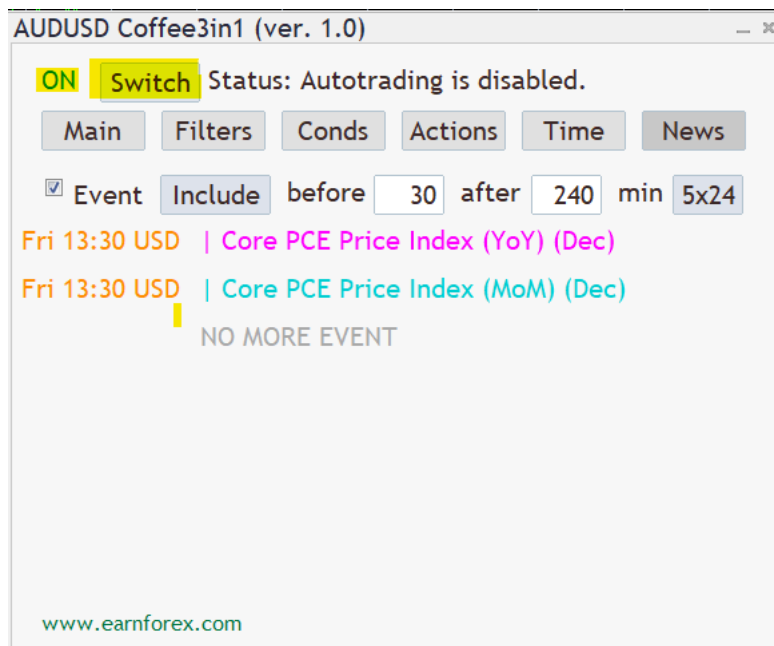

Exclude = trading is not allow in the news event session

News event is based on time scheduler, if time session is allowed to trade, then news event will take effect. E.g. Mon is allowed to trade, news event on Monday can control on/off trading session. Tue is not allowed to trade, news event on Tuesday will take no effect on Tuesday

- Finally, review your setting

Switch on to run your EA.

If auto trading is off because of condition (e.g. floating loss is reached), you can press reset button to resume trading again.

Or, setup a Cooling hour to resume auto trading after the specific hours.

If Cooling hour is not specified, 999 is assigned when condition is met.
